

TEMPLATE IS IN 2 LAYERS

- Guides (Non-printable Layer)
- Design

SAFE AREA:

Keep all copy within the "Safe Area" to ensure it doesn't get cut off.

BLEED SIZE:

Make sure the artwork extends to the Bleed Area in order to ensure that the page is printed properly.

The diagram illustrates a page layout template with three distinct horizontal regions defined by arrows. The top region, labeled 'Safe Area' in purple, is the innermost and narrowest, bounded by a purple line. The middle region, labeled 'Trim Size' in black, is the widest and is bounded by a black line. The bottom region, labeled 'Bleed Size' in red, is the outermost and widest, bounded by a red line. The arrows for each region extend across the entire width of the page, with the 'Bleed Size' arrow extending slightly beyond the 'Trim Size' arrow on both sides.
